Summer School

William and Ida Friday Center for
Continuing Education

UNC Global supports and strengthens Carolina's presence as a leading global public research university that prepares students for life in an interconnected world, helps North Carolina and the nation prosper globally, and addresses pressing global issues through collaborative research, scholarship, and exchange among UNC faculty, students, and their network of partners around the world. 

Since its establishment as the nation's first public university in 1789, the University of North Carolina at Chapel Hill has earned a reputation as a leading global university. Our school spirit has been forged through more than two centuries of academic excellence, public service, and athletic, professional, and personal achievement. Often called a "public ivy," Carolina is consistently ranked among the nation's best in academic quality, diversity, engagement, and international presence.

The University is located in Chapel Hill, a sophisticated college town that's adjacent to the Raleigh-Durham metropolitan area—an area with a population of more than two million people and a diverse range of collegiate activities, professional opportunities, resources, neighborhoods, cultural events, and more.

Carolina is a comprehensive research university, offering 78 undergraduate programs, 112 master's programs, 68 doctorate, and 7 professional degree programs through its 14 schools and the College of Arts and Sciences.

The University's academic plan embraces a comprehensive approach to fostering excellence to better serve the state, nation, and the world. Enhancing Carolina's global presence—by attracting faculty with international expertise, augmenting opportunities for global research, and expanding international opportunities for students—is a priority.

Approximately one-third of Carolina undergraduates study abroad before graduation—one of the highest rates in the US. The Study Abroad Office in the College of Arts and Sciences offers over 325 programs in more than 70 nations. In addition to study abroad, Carolina students are encouraged to pursue global research, service, and internship opportunities.

UNC FUNDING SOURCES

The University of North Carolina at Chapel Hill Fiscal Year 2015

CHANCELLOR'S GLOBAL EDUCATION FUND

The Chancellor's Global Education Fund is the only pan-university fund supporting Carolina's strategic global priorities. Private gifts from alumni, parents, students, and friends make possible UNC's mission to serve the state of North Carolina, the nation, and the world by giving University leaders the flexibility to provide funding to students, faculty, and programs working toward Carolina's top global priorities. For more information visit global.unc.edu/alumni-friends/global-education-fund.
